SEND FOR YOUR  
AUTO LICENSE NOW  
Delay in Getting Tag Will Lay Up  
Your Car.

Secretary of State Olcott calls attention of the auto owners to the new law which forbids one to drive a car without a license, and he states that unless applications are made early, many an auto owner will have to lay up his auto after January 1 and wait for his tag, as there are 49,000 autos registered in Oregon, and if the majority of them make application the latter part of December there will be a congestion in his office which will cause a long delay. Therefore, Mr. Columbia County Auto Owner, if you want to drive your buz wagon around on January 1, 1918, you had better send in your application for that new license number right now.

ASKS SUPPORT  
FOR XMAS SALE

Oregon Board of Health Asks People  
to Buy Package Seals.

Addressed to the people of Oregon the state board of health has issued an appeal for support of the Red Cross Christmas seal sale. The proceeds are to be used in aid of men rejected for military service because of tuberculosis, and also for the regularly organized work against tuberculosis in Oregon. The sale will be conducted by the Oregon Association for the Prevention of Tuberculosis. The appeal of the state board of health reads as follows:

"To the People of Oregon:  
"War gives new importance to the work of the Oregon Association for the Prevention of Tuberculosis. Numbers of men who apply for enlistment are rejected because of tuberculosis. Others contract the disease in service and must be returned to their homes. In either instance these men must be cared for. Any other course would be inhuman. It would be uneconomic. The Oregon state board of health desires most earnestly to commend this association to the support of the people of Oregon in performing this service. The association is admirably equipped. In co-operation with the state board of health names and addresses of men rejected for military service because of tuberculosis will be secured. Each will be followed to his home. Nurses especially trained in public health work will give him and his family instructions to aid in preventing the spread of infection and to add to his chance of overcoming the disease. Where necessary, sanatorium care will be arranged; supplies and suitable food will be furnished. This work can only be done if the Red Cross Christmas Seal sale conducted by the association is a success and adequate funds to meet necessary expense are secured. Such a necessity was not anticipated by the last legislature and the state has no appropriation for the purpose. The total amount needed is \$10,000. This will necessitate the sale of 1,000,000 seals at one cent each. Let the generous people of this state buy liberally and every penny will do double duty in saving life and preventing the destructive spread in Oregon of this dread disease."

The port of New York is under military control, the water fronts being guarded by the regular army. Fully armed guards prohibit the passage of any person, alien or citizen, who can not establish a business reason for access to the waterfront areas. The same military control will be established at all other American ports.
